Reports of an Awareness Program on Hidden Dangers of Alcoholism :A Silent Killer

Introduction

Alcoholism is a major public health issue affecting individuals, families, and society. It is often termed a “silent killer” because its harmful effects develop gradually and may go unnoticed until serious damage occurs. Globally, harmful alcohol use accounts for millions of deaths each year and contributes to diseases such as liver cirrhosis, cardiovascular disorders, and cancers.

To address this concern, an awareness program titled “Hidden Dangers of Alcoholism: A Silent Killer” was organized to educate people about its risks and preventive measures-

Objectives of the Program-

To create awareness about the harmful effects of alcohol consumption

To educate participants about physical, mental, and social consequences

To encourage healthy lifestyle choices and prevention strategies

To motivate individuals to spread awareness in the community

Details of the Program

Date: 29/05/2025

Venue: Vill-Borbila, Manikpur

Organized by: Deptt. of Education and Pol. Science in Collaboration with IQAC, Manikpur Anchalik College, Manikpur.

Participants: Students, teachers, and community members

The program witnessed active participation from a large number of attendees, reflecting growing concern about substance abuse issues.

Program Activities-

The awareness program included the following activities:

1. Inaugural Session

The program began with a welcome speech highlighting the seriousness of alcoholism and its growing impact on youth and society.

2. Teachers Lecture-

Teachers delivered informative talks on:

Causes and stages of alcoholism-

Health risks such as liver damage and addiction-

Social issues like domestic violence and accidents-

Teachers emphasized that alcohol abuse is linked to road accidents and social problems, particularly among youth.
